

WELCOME TO

DANCE AND CIRCUS SCHOOL !

HI! WE ARE LIZA AND DANILA!

Creators of **Black & Yellow** :)

Active performers and owners of **Neon Circus NYC**

We opened our main Hackensack location in 2021 and already had 3 amazing years in this beautiful new space

We created something that we wish would have existed when we were kids! :)

Here's what we teach

DUBSTEP DANCE

Robot dance, waving, popping, creating illusions with the body. We also add elements from Hip-hop, Electro Dance, Shuffle, Locking and other styles.

Kids learn

Confidence, Creativity and Teamwork

CONTORTION

Unlimited body flexibility, balance and tricks. Building strength so kids can keep their flexibility long-term and make Contortion a part of their healthy lifestyle.

Kids learn

Flexibility, Discipline and Determination

AERIAL SILKS

Learn how to fly, create a beautiful performance in the air and impress everyone. Use flexibility to create new shapes and combinations.

**Kids learn how to be
Graceful, Strong and Artistic**

AERIAL LYRA

Aerial discipline that's done on a metal ring (Lyra). It allows for a whole new world of strength and balance tricks!
